

PERRY PHILIP J. LOZANO

lozanodev2001@gmail.com | +63 967 466 4117 | Urdaneta City, Pangasinan, Philippines

PROFESSIONAL SUMMARY

Results-driven Software Developer with hands-on experience designing and delivering full-stack web and mobile applications. Proficient in Laravel, PHP, TypeScript, React Native, and the MERN stack (MongoDB, Express.js, React, Node.js), with strong expertise in RESTful API development, database design, and agile methodologies. Proven ability to build scalable systems and collaborate effectively within cross-functional teams.

TECHNICAL SKILLS

Languages: PHP, TypeScript, JavaScript (ES6+), Dart

Frameworks & Libraries: Laravel, React Native, Flutter, Express.js, React.js, Node.js

MERN Stack: MongoDB, Express.js, React.js, Node.js

Frontend: HTML5, CSS3, Blade Templating Engine

Databases & ORM: MySQL, MongoDB, SQL, Eloquent ORM, Prisma ORM, Database Design & Migration

Tools & DevOps: Git, GitHub, VS Code, Composer, Postman, DBeaver, XAMPP, Swagger / OpenAPI

Soft Skills: Problem Solving, Attention to Detail, Adaptability, Team Collaboration

PROFESSIONAL EXPERIENCE

Software Developer Intern | EasyCom Japan Philippines

2026

- Built a cross-platform HRIS for web and mobile using TypeScript and React Native; designed and implemented RESTful APIs with SQL and Prisma ORM for schema management.
- Documented all API endpoints via Swagger / OpenAPI and performed database inspection and query testing using DBeaver throughout the development lifecycle.
- Collaborated in an agile team using Git for version control, contributing to sprint planning, code reviews, and on-time feature delivery.

PROJECTS

Human Resource Information System (HRIS)

Tech Stack: TypeScript, React Native, SQL, Prisma ORM, Swagger, DBeaver, Git

- Built a full-featured HRIS covering employee records, attendance, and HR workflows across web and mobile platforms.
- Architected the backend with TypeScript; managed relational database schema using Prisma ORM, SQL, and documented all REST APIs with Swagger.
- Managed source code and feature branches using Git for version control and collaborative development.

School Management Portal

Tech Stack: Laravel, Flutter, MySQL, Git

- Developed a school management portal for a TESDA institution covering enrollment, grading, and course scheduling modules.
- Built the web backend using Laravel MVC with Eloquent ORM and MySQL; created a companion Android app using Flutter for student and admin access.
- Managed version control and collaborative development using Git throughout the project lifecycle.

EDUCATION

B.S. in Information Technology | Urdaneta City University

2022 – 2026

Relevant Coursework: Web Development, Database Management, System Analysis & Design, Object-Oriented Programming, Mobile Development

CERTIFICATIONS & TRAINING

- TOPCIT (Test of Practical Competency in IT) Participant — 2024 | International IT competency assessment by IITP, South Korea.
- Software Developer Internship Training — EasyCom Japan Philippines Inc. (2026)
- Certificate of Participation — SIKAPTALA 2026 Hackathon
